

Lilliput Lane™

COTTAGE COLLECTION
JANUARY 2011

WELCOME

The company was founded in September 1982, the dream was to capture the architectural heritage of Britain in the most authentic, detailed miniature sculptures ever seen. The fledgling company began with just seven employees.

From that original dream, Lilliput Lane has gone on to produce the world's most definitive cottage sculptures with collections depicting English, Scottish, Irish and Welsh styles, as well as French, Dutch, German and American over the years. We have certainly come along way, but one thing has always remained constant since the very beginning — our unwavering commitment to providing the finest detail, unmatched quality and, above all else, the authenticity for which our cottages have become so famous.

“

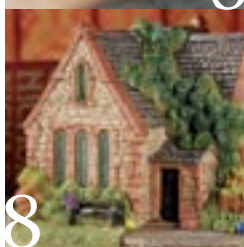

‘Our unwavering commitment to providing the finest detail, unmatched quality and, above all else, the authenticity’

Thatch, stone, tile, wood — all aspects of the vernacular map of Britain are featured, capturing the architectural heritage in the most authentic, detailed miniature sculptures ever seen.

MEET THE SCULPTORS

“

‘Stepping forward into the spotlight — here are our sculptors and artists, whose talent and skills have allowed Lilliput Lane to become so very popular over the years.’

JOHN BALL studied Fine Arts and ceramics at Stoke-on-Trent College of Art, obtaining a degree in Industrial Ceramics with First Class Honours. He has also worked for Royal Doulton, Aynsley China, and later for Caverwall China, where he designed the famous Country Diary of an Edwardian Lady giftware.

GARY KERKHOFF studied at Stafford College of Art and went on to work as a graphic designer/artist in the Midlands area. Sculpting was his hobby at the time, actually buying several Lilliput Lane pieces because he was fascinated by the quality and detail. A company sent a sample of Gary's work on to LL, and then David Tate wrote Gary a letter...

JACK MISSELBROOK, born and brought up in Dagenham came north to seek his fortune and to follow his future wife! He attended the North East Wales Institute in Wrexham, where he graduated with an HND in Technical Illustration. After eighteen months as a painter with LL, a trainee sculptor's job was advertised and Jack thought he would give it a go!

PHOEBE HARVEY-LEE grew up in a chocolate box village, complete with her own pet donkeys. She is now based in Sunderland, drawing inspiration from the Northumberland coast and her childhood memories.

GARY TODD was born and brought up in Penrith, where in 1988 he became a time-served joiner. After too many winters on cold building sites, Gary started work at LL as a caster in 1992. His lifelong interest in 3D Design has allowed his job to evolve from helping sculptors, to becoming a talented craftsman.

REBECCA HARDY was born in Hong Kong and returned to the UK at the age of six. She has studied both general and natural history illustration and after freelancing and moving north, she started working as a painter with LL. She is now the Research Illustrator, producing great illustrations for the 2009 Calendar and the place mats and coasters, as well as working on future products!

FROM CONCEPT TO COTTAGE

1. Each and every Lilliput Lane miniature is completely hand crafted by our skilled artists in Langholm, in the borders of Scotland.

2. The cottages are based on real buildings and many collectors enjoy touring the country lanes in search of the actual houses.

3. From photographs, the internet and sketches, up to forty different processes then follow to produce a complex series of moulds from the original sculpture. There is no room for error, as the original wax sculpture is lost during the the process!

4. Every tile, slate and flower is individually applied by hand to build up the different textures and details.

5. Flexible silicone-rubber moulds are used to cast faithful replicas of the wax original in a specially licensed material called Amorphite™. Once this has set, the moulds can then be carefully peeled away to reveal every last detail on the cast model.

6. After being sealed and dried once again, the model passes to one of our painters.

7. Up to thirty different colourways can be tried and checked for authenticity before a master version is chosen for each cottage.

8. Every skilled painter has to match each of the models they paint to the master version, to ensure that each is consistent.

9. Finally, cottages are baized and labelled, before a final quality check ensures that they leave Lilliput Lane in perfect condition.

“

No seconds are ever kept; if they do not pass our strict quality checks, then they are destroyed.
